

NeuroRehabilitation Sunshine Coast Centre of Excellence

Anatomy & Ultrasound Workshop

12th – 13th August, 2022

Sunshine Coast, Queensland

Applications are open to attend a 1.5 day Anatomy and Ultrasound Workshop on the Sunshine Coast on 12th and 13th August, 2022. The workshop is open to accredited registrars and consultants in:

- Rehabilitation medicine
- Neurology
- Orthopaedic surgery
- Plastic surgery
- Geriatric medicine

The main objective of the Anatomy and Ultrasound Workshop is to learn advanced ultrasound skills to identify anatomical structures to perform safe and effective intramuscular injections of botulinum toxin to treat upper and lower limb spasticity. It is expected that participants will already have a sound understanding of upper and lower limb anatomy prior to attending the course. Teaching and supervision will be provided by Dr Warren Jennings-Bell who has developed interest and expertise in spasticity management and ultrasound-guided botulinum toxin injections. The course will be restricted to a maximum of 4 participants to enable a detailed and first-hand learning experience.

Course details:

Location:	NeuroRehabilitation Sunshine Coast Suite 22, 16 Innovation Parkway, Birtinya QLD 4575
Course overview:	Day 1, Session 1 – upper limb anatomy and ultrasound Day 1, Session 2 – lower limb anatomy and ultrasound Day 2, Session 1 – review and consolidate
Cost:	\$880 (inclusive of GST)
Applications close:	30 th June 2022

This workshop is supported by Allergan Australia and Philips Healthcare ANZ
